

# Washing instructions

## TEXTILE CYCLES

Check both the temperature, given by the figure in the tub, and the machine-action, shown by the bar(s) under it. The temperature may be indicated by dots (six for 95°, four for 60°, two for 40° and one for 30°).

**Maximum agitation. Cotton cycle**  
White cotton or linen articles without special finishes.

**Maximum agitation. Cotton cycle**  
Cotton or linen articles without special finishes where colours are fast at 60°C.

**Maximum agitation. Cotton cycle**  
Cotton or linen where colours are fast at 40°C but not at 60°C.

**Medium agitation. Synthetic cycle**  
Acrylics, acetate or triacetate, including mixtures with wool, polyester and wool blends.

**Minimum agitation. Wool cycle**  
Wool, including blankets, wool mixed with other fibres, viscose and silk.

**Gentle agitation. Delicates cycle**  
Silk, acetates and mixed synthetics not colourfast at 40°C.

**Hand wash only**  
See garment label for further instructions.

**Do not machine or hand wash**

## DRY-CLEANING

The letter P or F indicates the cleaning fluids that may be used by your professional dry-cleaner.

May be dry-cleaned

Do not dry-clean

## DRYING SYMBOLS

Check the label to see if your garment can be tumble-dried; the label may advise using a reduced heat setting by putting a single dot within the circle. Two dots indicate a higher heat setting.

May be tumble-dried

Drip dry recommended

Do not tumble-dry

Dry flat

Hang dry

## BLEACHING

Bleach may be used

Do not bleach

Do not use chlorine bleach

## IRONING

- The dots inside the iron indicate the temperature setting. One dot represents the coolest setting and three dots are for the hottest temperature. The table (right) is a guide to the temperature to use for specific types of fabric.
- You should always use the setting recommended by the manufacturer. For some materials the advice may be that you iron on the wrong side of the fabric only, so check the label.
- To avoid creases, store your clothes in drawers and wardrobes loosely; don't pack them in.

**Hot (3 dots)**  
Cotton, linen and viscose fabrics.

**Warm (2 dots)**  
Polyester mixtures and wool.

**Cool (1 dot)** Acrylic, nylon, acetate, triacetate and polyester.

**Do not iron**
